REPORT ARCHITECTURE FYP2 Comparison Blueprint

Full Report vs. Simplified Report

Side-by-side structural comparison of document sections and finding format.

FULL REPORT
7 Sections
9 Finding Fields

VS

SIMPLIFIED REPORT
Only 3 Things
Clean & Actionable

1 Full Comprehensive Report

For: Security Engineers, Auditors, CISO

7 Structural Modules

1 **Cover Page & Engagement Metadata**
Target URL/IP, Assessment Date, CVSS Risk Score, Confidentiality

2 **Table of Contents**
Full paginated navigation across all technical chapters

3 **Executive Summary & AI Attack Chain**
AI Threat Narrative, Multi-step Kill Chain Graph, Severity Count Cards

4 **Methodology & Scope (14 Scanner Engines)**
Nmap, Nuclei, Nikto, ffuf, Dalfox, sqlmap, AI Code Auditor, PTES, NIST

5 **Findings Summary & OWASP Top 10 Mapping**
A01-A10 categorization matrix, vulnerability table & score distribution

6 **Detailed Technical Findings Dossiers**
Complete dossiers with 9 technical fields for every flaw

7 **Appendix & Scanner Execution Logs**
Raw CLI logs, engine exit codes, tech fingerprinting & legal disclaimers

EACH FINDING CONTAINS 9 HEAVY FIELDS:

1. Title & ID	2. CVSS 3.1 Score	3. CWE Tag
4. OWASP Cat	5. File & Line #	6. Attack Command
7. PoC Payload	8. Raw HTTP Snippet	9. Tech Remediation

2 Simplified IT Action Guide

For: IT Admins, Sysadmins, Webmasters, Ops Leads

Only 3 Core Things

1 THING 1: POSTURE & SLA URGENCY DASHBOARD
Triage findings directly into 3 clear operational deadlines:

FIX TODAY	THIS WEEK	SCHEDULED
< 24h SLA	≤ 7 Days SLA	Next 30 Days

2 THING 2: "YOUR FIX CARDS" (ONLY 3 ELEMENTS)
Zero academic jargon — just the 3 essential answers:

- **A. SYMPTOM** — **What was found** (in 1 plain sentence)
- **B. RISK** — **Why it matters** (real business/operational risk)
- **C. PRESCRIPTION** — **How to fix** (exact copy-paste config or click path)

3 THING 3: OPERATIONS CHECKLIST & SIGN-OFF
Fast sign-off punch list for accountability:

- ☑ Assignee & Completed Checkbox
- ✍ IT Lead Formal Sign-off Line

🚀 **Fast MTTR:** IT admins don't need pentest tools — they just read the 3 things and apply the fix immediately.

SUMMARY **Full Report:** 7 exhaustive modules & 9 deep technical fields for formal audit defensibility. **Simplified Report:** Only the 3 things (Posture $\rightarrow$ Fix Cards $\rightarrow$ Sign-Off).
